# Subject-based Banding (SBB) for primary school

- **Every child is unique**, and has different aptitudes, capabilities and talents.
- SBB allows **greater flexibility for students to take subjects at different levels** depending on their aptitudes and abilities in these subjects.

# How Subject-based Banding works

## At the end of Primary 4

**School recommends** a subject combination based on the student's results.  
**Parents fill up an option form indicating preferred combination.**

## At Primary 5

**Your child takes subject combination chosen by parents**  
English, Math, Science and Mother Tongue are available at standard and foundation level.  
Mother Tongue is also available at the higher level.

## At the end of Primary 5

**School decides** on the subject combination based on the student's results.

## At Primary 6

**Your child takes subject combination decided by the school**
